

# AUTONOMOUS DRONE SOLUTIONS

WITH MICROSOFT'S AUTONOMOUS SYSTEMS PLATFORM

GUADA CASUSO - PAUL STUBBS- MIKE WISE

WE ARE LIVING IN AN  
AUTOMATED WORLD

# EVOLUTION OF INDUSTRIAL SYSTEMS

## Mechanized systems

Powered by **steam or electricity**

Manually operated

## Automated systems

Powered by **software**

Fixed operation

## Autonomous systems

Powered by **AI**

Intelligent operation (sense/plan/act)

# EVOLUTION OF INDUSTRIAL SYSTEMS

## Manual systems

Labor intensive  
Error prone  
Difficult to scale

## Automated systems

Task specific installations  
Effective and scalable  
Programmed behavior  
Limited in scope and flexibility

## Autonomous systems

Solve previously unsolvable problems  
Robust and flexible decision making  
Learned policy  
Human in the loop

# DARPA SUBTERRANEAN CHALLENGE

<https://aka.ms/as/subt>

SUBT PLATFORM

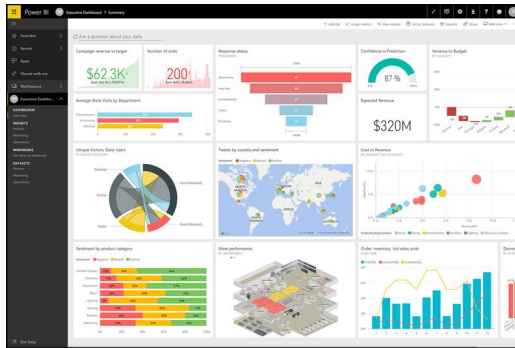

# AirSim provides a rich and dynamic AI/ML learning environment

Loaded settings from C:\Users\simuser\Documents\AirSim\settings.json  
Press F1 to see help  
Camera: ExternalCamera  
Joystick (T,R,P,Y,Buttons): 0.500000, 0.000000, -0.000000, 0.000000, 000000000000000000  
RC Mode: Angle  
Collision#4 with Road\_89 - ObjID 171  
Collision Count:0

# DEVICES FOR STATUS/SIMULATION VISUALIZATION

Dashboard/  
Laptop

Annotated  
Reality

Virtual  
Reality

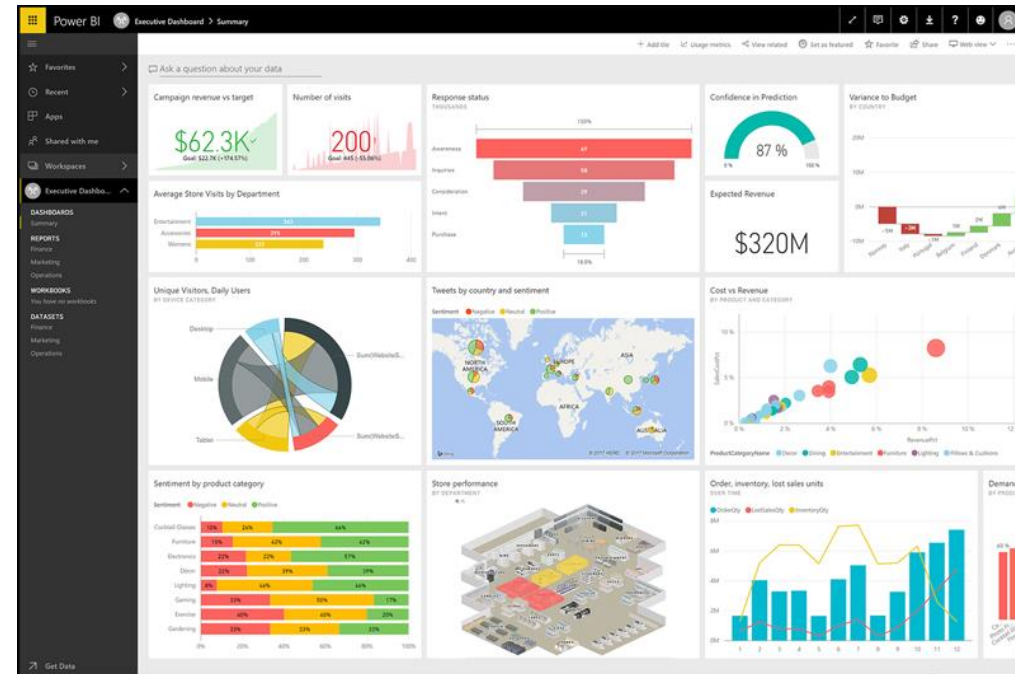

Mixed  
Reality

# DASHBOARD/LAPTOPS

- State of the art today
- Mostly indoor
- Many solutions available
- Microsoft: PowerBI

# ANNOTATED REALITY

- Increasing acceptance
- Essentially head mounted tables
- Ruggedized outdoor solutions available today
- Rapid adoption, but not yet common
- RealWare device shown on left runs android

# VIRTUAL REALITY

- Common in gaming world
- Indoor only because of total immersion
- Very useful for training
- Acceptance is limited outside of younger generation

# MIXED REALITY

- Blended combination of reality and graphics
- By far the most difficult
- Seems magical 😊
- Will change our interactions with information
- Today not feasible in bright sunlight
  - Probably 5-10 years before this is possible
- US Army has massively invested in this technology (Project IVAS)
- Microsoft is the technology leader with the HoloLens - a second-generation device
