Topics

- Benefits
- Types of Agreements
- Abstract to Agreement Process Overview
- Hints and Tips
- Q&A

Benefits of Agreements

- Formalizes relationships with entities that generally have similar interests
 - Data rights, liabilities are clearly defined up front
- Protects both parties
- Allows NASA and Partner to benefit from research at less cost
- Sustains NASA's unique skills & facilities while providing services

Commercial

NAI: the Community

Academia

International

Military

NASA Research Park

Interagency

Types of Agreements

Interagency

Space Act

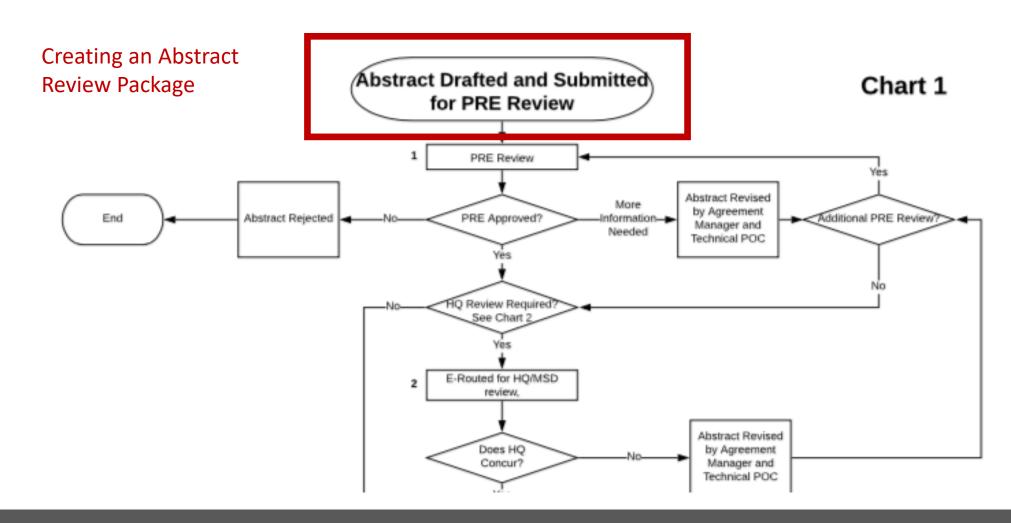

International

Non-reimbursable

<u>or</u>

Reimbursable

Abstract to Agreement Process

Components of an Abstract Review Package

- Abstract
- HQ Concurrence email
- Estimated Pricing Report (EPR)

Abstract Overview

Purpose:

- An abstract is a summary of the proposed activity, which may be reviewed by Headquarters to gain approval and may contain proprietary information on the proposed activity and associated resources.
- It addresses how the activity relates to NASA's mission(s).
- This is not a legally binding document.

• FAQ:

- Why does NASA's early stage review matter to me?
- What should I, the Partner, be doing during this phase?

Estimated Pricing Report (EPR)

In accordance with NPR 9090.1B, an EPR is required for all Reimbursable and Non-reimbursable agreements except where specified.

- EPR should accompany the Reimbursable agreement package when routing for approval and signature.
 - Approval signature of the EPR is required when not routed in (PAM).
 - Technical representative or Resource Executive could approve EPR outside of PAM.

Requirements for EPR

The EPR should contain the following elements:

- Labor
- Travel
- ODCs Materials, supplies, utilities, grants, and other direct costs in support of the agreement.

How and Why?

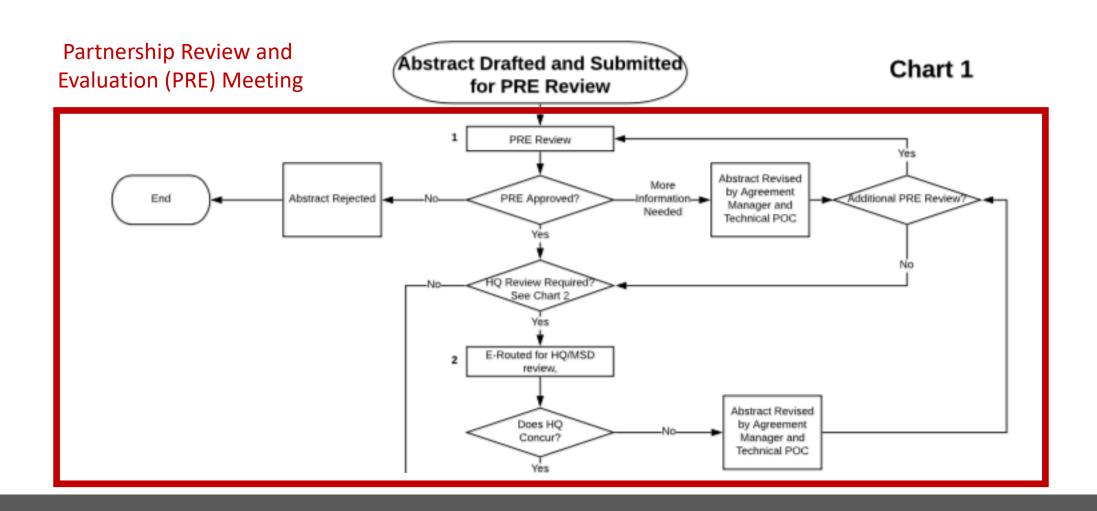

- The first "E"
- Reimbursable Vs. Non-Reimbursable
- Why does NASA want this?

Pricing Template Summary Sheet

Abstract to Agreement Process

Partnerships Review and Evaluation (PRE) Meeting

• Purpose:

- To present all activities to determine feasibility, legality, and resource commitment.
- Provides recommendations to optimize successful outcomes

Audience:

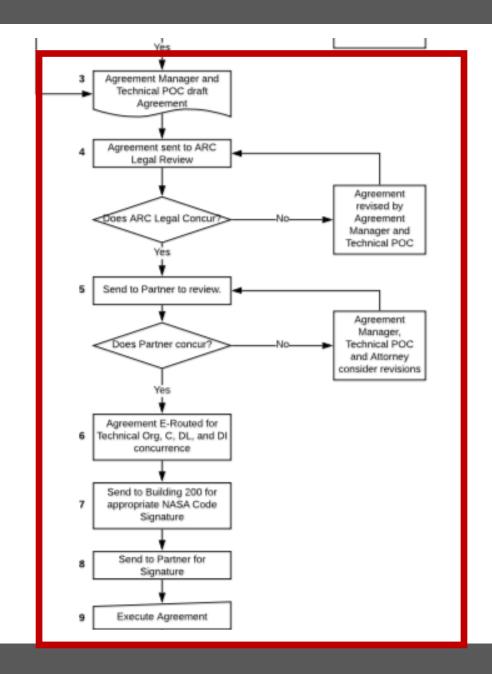

- Partnerships Office, Legal, Code C, and all related technical points of contact (and relevant management representatives as needed)
- Next Steps:
 - PRE Revisions
 - HQ routing, if necessary
 - Agreement formation process

HQ Review Board

- Partnership Office (PO)
- Aeronautics Research Mission Directorate (ARMD)
- Science Mission Directorate (SMD)
- Space Technology Mission Directorate (STMD)
- General Counsel (OGC)
- Safety and Mission Assurance (OSMA)
- Office of Enterprise Protection (EPP)
- Chief Engineer (OCE)
- Chief Financial Officer (OCFO)
- Chief Information Officer (OCIO)
- Chief Scientist (OCS)
- Chief Technologist (OCT)
- Legislative and Intergovernmental Affairs (OLIA)
- Communications (OCOM)
- Strategic Capabilities Asset Program (SCA)
- Space Environments Testing Management (SETMO)

Agreement Process

Agreement Process Overview

- Purpose:
 - To create a legally binding document based on the approved abstract.
- FAQ:
 - How long does it take to get an Agreement into place?
 - What do I need to do to make the process quicker?
 - What are common issues during this phase that are external to NASA?

Hints & Tips

- Accurate Risk Assessment
- Streamline
- Big Picture
- Upfront Communication
- Total scope of partnership identification

NASA Technology Transfer

software.nasa.gov/

Public Domain

NASA TECHNOLOGIES

Search Newly

To stimulate the innovation economy, NASA makes a portion of its technology portfolio *freely available* for anyone to use.

The technologies in this public domain portfolio do not require a license agreement, and anyone may freely pursue independent product development right away without the need to contact NASA in any way.

Patent Portfolio

The NASA patent portfolio
is available to benefit US citizens. Through partnerships
and licensing agreements with industry, these patents ensure that
NASA investments in pioneering research find secondary uses that
benefit the economy, create jobs, and improve quality of life. Click on
each of the category icons for a list of patents in that category or use
the search below to explore NASA's patent portfolio.
